

My learning journey in reading lessons

How I learn to comprehend (understand what I am reading)

BACKGROUND KNOWLEDGE

What do I need to know to help me understand what I am going to read?

What do I already know about what I am going to read?

My teacher will teach me the background knowledge, which will help my understanding.

VOCABULARY

What is the key vocabulary (words/phrases) I need to understand about what I am going to read?

My teacher will teach me the key vocabulary I need to understand to help me understand what I'm going to read.

We will read the text as a whole class and my teacher will:

- Teach me how to understand what I have read;
- Give me the opportunity to answer questions about what I have read

My teacher will give the whole class feedback on the questions they have answered, give them time to learn from their mistakes and practise.

I will read the text again in a few weeks, as by practising it will help my memory to remember.
